

Contract No. EVK4-CT-2002-00079 CAST
CAST - CITY ANALYSIS SIMULATION TOOL
PROCESS AND SOFTWARE TOOLS FOR ANALYSIS AND SIMULATION OF
DEVELOPMENT OF CITIES INTO THE FUTURE

**Project technical workshop
10:00am Tuesday 18th March 2003**

**at ASSTRA
P.zza Cola di Rienzo 80 – Rome**

AGENDA

1. Approval of the agenda and apologies
2. Definition and specification of the end product
 - 2.1 State of the art of city modelling
 - 2.2 Progress to date - demonstration of exploratory models
 - 2.3 What should CAST do for the users – definition and range of user needs
 - 2.4 Choice of hardware and software platforms
3. Components and processes in cities
 - 3.1 Definition and specification of elementary components of cities
 - 3.2 Definition and specification of component based inputs, outputs and processes
 - 3.3 Definition and specification of connectivity of elementary components
 - 3.4 Discussion of different layers for modelling and simulation
 - 3.5 Data available for calibration and validation of models
4. Programme for the next 3 months
5. Any other business
6. Dates for next meetings
