1. Background

The Call for Tenders for the development and hosting of the PortCREW Digital Platform (Project ID Euro-MED0401227) was published on the company's website and further promoted through social media channels to ensure maximum visibility and transparency.

The procurement procedure was conducted in accordance with the applicable Interreg Euro-MED Programme rules and the relevant EU and national regulatory framework, applying the most stringent provisions. In particular, reference is made to Italian Legislative Decree No. 36/2023, under which, for below-threshold service contracts, no minimum number of tenders is required and the validity of the procedure is not affected by the number of offers received.

An Evaluation Committee was appointed in accordance with the applicable provisions. The evaluation of the offers received was conducted by the Evaluation Committee in compliance with the criteria set out in the Call for Tenders.

2. Evaluation Outcome

Tenderer	Technical Score	Financial Score	Total Score
Offer A	63	20	83
Offer B	54	13,5	67,5

3. Award Decision

On the basis of the evaluation results provided by the Evaluation Committee, FIT Consulting S.r.l. hereby:

- approves the outcome of the evaluation procedure;
